

SERVICES:

Service Business Incubator: The SC RCWD, Inc., operates a Service-Business Incubator that provides resources to rural small businesses and agri-businesses that will aide in growth and retention. Registered business owners can utilize the facility for management support, technical assistance, meetings, office resources (i.e., xeroxing, e-mails, etc.), training, and mentoring. In addition, the SC-RCWD, Inc., provides mentoring and programming for youth and adults in developing business ideas, and writing business and strategic plans.

Workforce and Entrepreneurial Development: The SC RCWD, Inc., will provide training, courses, and programs (soft skills, coding, leadership) to address the job development needs of clients. We provide packaged training (NxLevel) and webinars for individuals or groups leading to certificates. “Maymester” type courses in the areas of marketing, accounting basics, business management, legal/tax management will be offered. We will collaborate with business development organizations (Score, State and National Small Business Development Centers) to develop children, youth and adult entrepreneurs.

Career Development: Rural community participants will develop career plans and outline strategies to succeed. They will participate in programs that lead to jobs in high market areas such as coding, marketing, etc.

Community Development: Additional avenues of job creation within the community are established through training and development of women, children, and adults. Plans will address the socio-economic disparities relating to health and the sharecropping legacy of the Rembert Community.
